

THE BRIEFING

You have Copilot. Now make it transform work.

A 60-minute executive session, and the front door to our AI Innovation Workshop. See how organizations like yours are putting Copilot, Cowork, Agent 365, and Custom Agents to work by role. Learn what a strategic Copilot launch actually covers, then score your own use cases live, and leave with a prioritized shortlist and a workshop date.

60 min Complimentary executive session	6 pillars Of a strategic Copilot launch	3 Roles prioritized for adoption	24 hr Opportunity Map delivered

THE FLOW

Three acts. Envision, then launch, then act.

01 · ENVISION Copilot in your industry 10 minutes How we are helping organizations like yours adopt Copilot: which roles moved first, what worked, preventing stalls. EXAMPLE ROLES WE UNLEASH • Finance · spend and variance analysis, close packs, policy agents • HR · job descriptions, interview guides, an always-on policy agent • Procurement · RFP drafting, clause review, supplier briefs • Sales · account prep, proposals from call recaps, pipeline patterns • Operations · SOPs and RACIs, frontline knowledge agents, recaps • IT & Leadership · daily briefings, oversharing risk, Cowork	02 · LAUNCH Key rollout considerations 10 minutes What separates idle licenses from launches that reach sustained, purposeful usage. THE SIX PILLARS • Change management · sponsorship, AI Council, comms by cohort • Readiness · licensing, data hygiene, personas, rollout cohorts • Champions & training · role-based curriculum, labs, prompt library • Governance & security CoE · Copilot Control System, Purview, agent lifecycle • Usage tracking · adoption dashboards, alerts, ROI scorecard • Microsoft partnership · account team alignment and support	03 · ACT Discover, Prioritize, Act 40 minutes A working session on your tenant and roles, leading to a plan. INTERACTIVE DISCUSSION • Current state · where it is deployed, who uses it, challenges • Art of the possible · when to use Copilot Chat, Cowork, or a purpose-built agent • Scored shortlist · prioritize three roles / processes to enable next • Considerations · licensing, permission sprawl, governance, measurement • Next steps · on the calendar before we hang up

HOW IT WORKS

Five minutes of prep. One hour. A plan.

01 · BEFORE 5 minutes Short intake Your industry, licensing, where Copilot is deployed today, and the roles and business functions you care most about.	02 · IN SESSION 60 minutes Three acts Copilot envisioned for your industry and roles, what a strategic launch covers, then your footprint, shortlist, constraints, and next step.	03 · AFTER 24 hours Opportunity Map One page: your scored use cases by role, launch readiness, the constraints we found, and the workshop where we build on them.

WHY ARCHITECTNOW

- **Four Solutions Partner designations**
Data & AI, Digital & App Innovation, Infrastructure (Azure), and Support Services.
- **AI Apps on Azure specialization**
Plus an Azure and AI MVP on staff leading the technical sessions.
- **Best practices, not a product tour**
How good teams actually use Copilot, and where the stalled ones went wrong.
- **A path that ends in results**
From briefing to rollout, we partner with you on enablement, governance, and adoption.

Start with the briefing. Leave with a workshop date.

60 minutes, virtual, complimentary. The workshop that follows is complimentary too.
